OVERVIEW

Much is said about Washington. Much of it is wrong. This course will immerse students in the history, politics and character of the nation's capital. You will learn about Washington's transformation from a remote federal city to the world's most powerful capital. We will analyze the accuracy of Washington's depiction throughout history, how it is represented – and misrepresented -- in modern culture, and why it is ridiculed by politicians who want to work there. We will examine the glorification and vilification of Washington in literature and film and assess the truth behind popular Washington myths. We will probe Washington policy debates and rituals and survey the research tools used to separate fact from fiction. You will have an opportunity to study and visit monuments and museums, as well as iconic institutions such as the Newseum and Ben's Chili Bowl.

The seminar is the primary academic component of your term in Washington. You will be exposed to a mix of lectures, readings, discussions, field trips and guest speakers to experience as much of Washington as possible in a single term. Readings will include scholarly writing, literature and journalistic accounts, aimed at offering insight into the workings and role of the capital. Students will be required to use primary sources to learn more about their internships and to determine the validity of Washington conceptions and misconceptions. Regular discussion of contemporary policy and politics will provide a window to understand how Washington works.

The seminar is also a place to discuss your internship and put your work in perspective. The seminar will encourage students to reflect analytically on their internships and the Washington program.

We will meet every Thursday from 10 a.m. until 1 p.m. Attendance is mandatory and you should plan to leave your schedule free between 10 and 1.

COURSE GOALS

Students will emerge with a sophisticated understanding of how Washington works and a strong sense of the institutions, individuals and interest groups that drive the federal government including Congress, the White House, courts, media, lobbyists, interest groups, and political campaigns. They will experience the city's cultural offerings and urban challenges. They will gain insights into why the nation holds Washington in low esteem and develop skills to determine which stereotypes are based in fact. Students will also emerge with a deeper understanding of the role of public service and citizenship and the contributions of their own internship.

CLASS HOURS

The course will meet each Thursday from 10 a.m. to 1 p.m. Hours may be adjusted periodically to accommodate speakers, field trips, or individual conferences. **It is important that your internship supervisor understands that Thursday is a class day.** Please inform the instructor prior to class if you will be absent.

ASSIGNMENTS

E-mail all written assignments to me at msandalow@ucdc.edu or marc.sandalow@ucdc.edu (they are the same.) Include your name and the assignment name in the subject line. If possible, attach as a WORD document (no PDF's) Hard copies are not necessary.

1. **SHORT ASSIGNMENTS:** To be assigned on many, but not all, weeks. Assignments may include original research into a historic landmark, a review of presidential portraits, and a census report on your hometown.
2. **INTERNSHIP PAPER:** You will write a paper describing how the institution you are working for serves the public interest. What is the overarching goal of the work? Whom does the work benefit? What aspects of your organization's work are altruistic, and which are self-serving? A strong paper will include a description of the organization, perspective on where it fits into the broader policy world, some details on its size, budget and mission, history, how the outside world views the organization and how your contributions serve the public interest. 1500-2000 words
3. **WASHINGTON PORTRAYAL/MEDIA STEREOTYPE REVIEW:** Each student will select a book, movie or television show which features, or takes place in, Washington. You may select any piece of literature, fiction or non-fiction, so long as Washington is prominent. Write a review which describes how the book perpetuates, dispels, or confirms a Washington stereotype or myth. Explain with research and analysis the accuracy of the book, movie or show. Use your own experience from your term in Washington to evaluate its validity. The central point of the review should be the accuracy its portrayal. 1500-2000 words
4. **WASHINGTON POLICY PAPER:** Students will write a multi-pronged policy analysis on an issue of their choice, preferably one that overlaps with their internship. Each paper will include an objective explanation of the issue, a critical analysis express the author's views, and a counterargument. 1500-2000 words.

5. ORAL PRESENTATION “MOCK” PUBLIC INTEREST SPEECH:

Each student will deliver a one-minute talk on an organization of your choice that begins with the sentence: ***“I believe that (name of organization) is good for America.”*** You may select any organization which meets the following two criteria: 1) the organization must have a Washington presence and 2) you must personally find its work reprehensible.

For example, you might argue that “The Tobacco Council is good for America because it fights to preserve the right of Americans to engage in a relaxing and legal activity.” You would go on to explain what the council does and why its activities serve the greater good.

GRADING

1. Class participation/oral presentation/short assignments 25%
2. Internship paper 25%
3. Washington stereotype paper 25%
4. Policy paper 25%

Content, research and clarity are the most important qualities, of all assignments, though careful writing, grammar, a lack of typos and other details also count. Late papers will be penalized one-third a grade each day. Plagiarism is not-tolerated and will result in a failing grade.
